

Social & Personal

Mrs. Rebecca Giff held a reception for delegates to the WIZO Conference and guests from abroad at the Hotel Aviv-Hotel, Tel Aviv, on Sunday night.

Mrs. Miriam Freund, National President of the Jewish Agency, and Mrs. Rose Halperin, As. Chairman of the Jewish Agency Executive in New York, were the guests of honor at a reception given by the President of the Hebrew University, Prof. B. Z. Kanner, on Sunday evening.

Yigal-Aluf Yosef Golan has been appointed O.C. Golan, replacing Aluf-Moshe Ramon.

The delegation of the Zionist Federation of Great Britain, which is now touring Israel, visited the Hebrew University yesterday.

Mr. N. O. W. Stewart, British Consul General in Haifa, visited the New State of Israel before the Kibbutz Rotary Club in Kiryat Motzkin, today at 1.30.

Mrs. Gershon Agmon will give a tea party at 4.30 p.m. today at her home in Rehavia in honor of the participants of the International Festival of the Young.

The festival is to take place at the King David Hotel, Jerusalem, on March 23, under the auspices of the Jerusalem branch of the Anti-Tuberculosis League.

Veteran German Journalist Dies

TEL AVIV, Sunday. — The funeral took place today of Fritz Goetz, one of the former editors of the "Jewish Voice" in Berlin. He died on Friday aged 80.

Goetz was born in Upper Silesia and studied in Breslau, Berlin, and Bonn. He was a Zionist from his youth, he was a delegate to the Second Zionist Congress. He spent 22 years with the Ullstein publishing house here, going to Palestine in 1933. He came to this country in 1938, and started a private school of journalism. He published articles in various periodicals, particularly in "Der Arbeiter" and "Der Morgen". He is survived by his wife.

Solieli Buried At Har Menuchot

Dr. Max Solieli (Solovitch), who died in Jerusalem on Friday, was laid to rest yesterday afternoon at Har Menuchot cemetery in Jerusalem.

At Aivah Hospital in the Russian Compound, the deceased was eulogized by Professor N.H. Tur-Sinai and Mr. A. Gorfinkel. He then moved through the heart of the city to the Jewish Agency compound.

Here Dr. Nahum Goldmann, President of the Jewish Agency, described the deceased's multitudinous activities for the Zionist Movement and for biblical research, as well as for the Jewish community in L.A. Dr. Solieli is survived by his wife.

ILL. — Bruno Walter, German-born orchestra conductor, was taken to hospital in New York on Saturday after suffering a heart attack. He was said to be resting comfortably.

Third of Haifa Subway Dug

Jerusalem Post Bureau

HAIFA, Sunday. — The city's subway project — still on the drawing boards eight months ago — has gone underground and is making rapid progress there, uphill and down. Newsmen, safety helmets on heads and pens in hand, were taken below Prebena Street on Friday for a look at the world's second deepest subway.

Other underground visitors yesterday included Dr. Gershon Agmon, who was taken to the tunnel by a car.

Three Sleds Bore blasting crews, cautiously wielding primer cartridges, detonators and explosives, are now at work on three levels. The first level is the tunnel, the second is the shaft, and the third is the station.

The tunnel is 4.3 metres high and 3.3 metres wide. It will be about twice as wide at the stations.

So far the blasters have not very hard rock almost all the way. The engineers are happy because no butting needed to hold up the roof. The tunnel is 4.3 metres high and 3.3 metres wide. It will be about twice as wide at the stations.

The tunnel is 4.3 metres high and 3.3 metres wide. It will be about twice as wide at the stations.

Beersheba Council Overrules Mayor

Jerusalem Post Reporter

BEERSHEBA, Sunday. — Mayor David Tuvyahu on Thursday suffered his first setback as Chairman of the Municipal Council when his motion that he alone be permitted to give information on Municipal affairs to a Beersheba lawyer was overruled in a storm of protest.

The Council finally decided, by a vote of 7 to 5, that all members of the town management will be authorized to give information to the lawyer, Mr. Yehoshua Shavit.

The latter had asked the Supreme Court for an order nisi against the Municipality to show cause why he should be given access to city files to enable him to protect his clients' interests.

At the instance of the Herut Council, it was agreed to send a telegram congratulating Mayor Robert Wagner of New York City for his courage in not giving an official reception to King Saud during the latter's official visit last month.

The Council also decided not to give the Municipal rates for the coming fiscal year.

Other underground visitors yesterday included Dr. Gershon Agmon, who was taken to the tunnel by a car.

Three Sleds Bore blasting crews, cautiously wielding primer cartridges, detonators and explosives, are now at work on three levels. The first level is the tunnel, the second is the shaft, and the third is the station.

Speak to Receive Charlemagne Prize

Jerusalem Post Reporter

AACHEN, West Germany, Sunday (Reuter). — The Belgian Foreign Minister, M. Paul Henri Spaak, has been awarded this year's international Charlemagne Prize which last year went to Sir Winston Churchill.

A spokesman for the city of Aachen said M. Spaak had been nominated for the prize "for his services towards creating a unified Europe."

The prize consists of a silver medal and a certificate and 5,000 Marks. The presentation is to take place on May 30.

When they arrived for work yesterday morning, they were told that they would be given employment during the week.

TEL AVIV, Sunday. — "History will show that the Sinal campaign was worthwhile, despite all the sacrifices entailed during and after the fighting."

These were "propelled" arrows invented by a navy captain by the name of Tang Yu.

The radio said, "A rocket case filled with explosive propellant was fixed to the shaft of a small arrow and carried it to its target."

Also on exhibit was "one of the world's first cannons, probably the oldest one ever made." It was found in the county of Shaanxi province, and was cast in bronze in 1381 C.E.

Labourers Lock Out P.W.D. Officials

Jerusalem Post Reporter

A three-hour wildcat strike of 40 labourers of the Public Works Department of the Ministry of Labour ended yesterday morning when the workers agreed to submit the matter to the Histadrut for clarification.

The labourers, who receive a daily wage, claim that they were promised that half of them would be given employment during the week.

New Legal System For Tunisia

Jerusalem Post Reporter

TUNIS, Sunday (Reuter). — Two treaties were signed yesterday between France and Tunisia dealing with the position of French civil servants in Tunisia and setting up a Tunisian legal system.

Previously Tunisian law courts were run on the French pattern. After July 1 this year all foreigners, who previously faced French courts, will be judged by Tunisian courts.

Aston Villa Hold Manchester United at Old Trafford

Jerusalem Post Reporter

ASTON VILLA, one of the four semi-finalists in the F.A. Cup, provided the surprise of Saturday's English League programme by holding Division I leaders, Manchester United, still in the Cup, at Old Trafford to a 1-1 draw, before a crowd of over 50,000.

The United held a complete reserve half-back line, and Preston North End, playing nowadays in the fashion that got them the nickname of "Proud Preston," fought out a 4-3 win over Charlton Athletic, to retain second place behind the United, and reducing the lead to five points.

ARRIVALS

Mr. Ephraim Ben-Ari, General Manager of M. A. and his deputy, Mr. Yosi Faldut, arrived from a meeting of company representatives abroad, in Zurich (by TWA).

Mr. Curtis Campaigne, Secretary General of the World Federation of ex-Servicemen, and Colonel E. Fenwick, of the Australian Federation, for a week's visit at the invitation of the local federation (by TWA).

DEPARTURES

Dr. Dov Joseph, M.K., Treasurer of the Jewish Agency, to Canada and the U.S. on behalf of the U.J.A. (by M. A.).

Baroness James Henri de Rothschild, to Athens (by Air France).

A CIVIL DEFENSE exercise is to be held in Tel Aviv tomorrow from 7.30 a.m. till 9 p.m. Sirens will sound a steady, three-minute blast to signal the beginning of the drill. In the event of an actual alarm, the signal will be a three-minute warbling sound.

FOR REINO in possession of 20 kilograms of hashish, Aaron Dornin and Yehoshua Rosenfeld, both of Haifa, were yesterday remanded on IL1,000 bail each.

HABIBAH HAS been invited to participate at the Theatre des Nations — the international drama festival sponsored by the French Government and the City of Paris to be held this summer in the French capital.

THE LAST DAY for registration for the "1957 March" is March 15. Those interested should register through Army P.O.R. 2415.

Lady Bonham Carter Expected Today

The arrival is expected today of Lady Violet Bonham Carter, D.L.E., prominent in the political life of the United Kingdom. Lady Violet will be the guest of the Government, and during her 10-day stay will be received by Prime Minister Ben-Gurion.

She is Vice-President of the Liberal Party, and Governor of the Old Vic theatre company. The prominent guest, a remarkable orator, is the daughter of the Rt. Hon. H.H. Asquith, a former Prime Minister.

Also expected to arrive today in Israel is Prof. Tingsten, editor of the noted Stockholm paper, *Dagens Nyheter*. Prof. Tingsten will visit for 17 days.

The head of the London office of "Asahi Shimbun," Mr. Kiyono Mori, arrived yesterday for a three-day tour of the country.

U.S. Denies 39 Ships Given Turkish Navy

WASHINGTON, Sunday. (Reuters). — State Department officials yesterday described a Moscow report that the U.S. had transferred 39 of its ships to the Turkish Navy as a "bad distortion."

The report in the Soviet Navy newspaper "Red Fleet" said the transfer was part of an American plan to "push Turkey toward war preparations."

The State Department officials said the report "appears to be a bad distortion of a relatively small naval assistance programme for Turkey which the U.S. has operated for the last decade."

Agency Ups Budget by IL65m To Meet Immigration Needs

The Jewish Agency Executive, meeting in Jerusalem for the past four days, decided to increase the Agency budget by over IL65m, to meet the needs of increasing immigration, Mr. A. Harman, Director of the Agency's Information Department, told a press conference in Jerusalem yesterday.

14 Families Come To Gaza Border Village

HAIFA, Sunday. — Fourteen families from North Africa, headed by their rabbi, who arrived in the A. P. office this morning, left immediately for settlement at Asala, on the border of the Gaza Strip, where their relatives are living.

The P. office brought 472 newcomers, including 84 from Egypt. The majority were sent to the development area, including Asala and Be'er Yehoshua, near the Gaza Strip, and the P. office is now proceeding with a foreign firm to obtain a long-term loan for this area.

Contributions from West Europe, South America and the U.S. had in the past five months exceeded the \$10m. goal set for the entire year, he said. A West European regional conference would be held in Paris at the end of this month, and a South American conference would be held in Buenos Aires, sometime in the near future.

The new budget allows for increases of IL12.5m for immigration; IL14.5m for absorption; IL14.5m for the P. office; IL11m for Youth Aliya.

For some 1,500 immigrant professionals and their families, who will have to settle in populated places, the Agency has set up a joint IL2m loan fund for key money and the purchase of flats.

Although employment for new immigrants is chiefly a Government concern, the Agency and Government would jointly work on three programmes, the spokesman said. These include: the existing agricultural settlements, the "Eshkol Plan," whereby newcomers will spend a trial year in kibbutzim and expansion of hill farming.

WIZO Members To Learn 500 Hebrew Words

TEL AVIV, Sunday. — Every member of WIZO will endeavor to learn at least 500 Hebrew words, to mark the 10th anniversary of the establishment of the Jewish State. This resolution by the Education Commission was unanimously passed by the 13th World Zionist Conference meeting at the Ramat Aviv Hotel.

A resolution of the Latin American regional conference to create a special department in Buenos Aires for the adaptation of immigrants to the educational and publicity material to the 60,000 WIZO members organized in 21 countries of Latin America was endorsed.

Mrs. Zena Harman, Israel's representative on the U.N. Children's Emergency Fund, told the conference that organizations such as WIZO had laid the groundwork for what UNICEF was doing today on a world-wide scale. The conference was held at the Ramat Aviv Hotel.

MALTA FEVER IN WESTERN NEGEV

BEER-SHEVA, Sunday. — Fifty persons from Haifa, ill with an epidemic of Malta fever in Moshav Mellot, in the Western Negev. Five of them have had to be hospitalized at the Hadasah Hospital here.

Malta fever is carried by sheep and goats. Its symptoms are a high temperature and chills, similar to malaria. It is likely that the settlement's entire flock of sheep and goats will have to be slaughtered. A year ago, all of 500 Boker's cattle contracted the disease and had to be killed.

Haifa Taking Over Water Supplies

HAIFA, Sunday. — The Municipal Council tonight decided to incorporate the town's private and co-operative water supply companies under municipal authority by May 1.

Yarkoni Was Suspect, Shura Witness Tells Court

TEL AVIV, Sunday. — The witness testimony in the hearing of the Amos Ben-Gurion versus Shura Hamit was the focal point of the day's proceedings.

The Shura's 12th witness, Mr. M. Barzilai, head of the Criminal Division of the Ministry of Commerce, testified that in an official investigation carried out by him in 1954, he had been asked to assist in the investigation of the Shura's activities.

The witness testified that he had been asked to assist in the investigation of the Shura's activities, and that he had been asked to assist in the investigation of the Shura's activities.

Henry Koslovsky, Negev Doctor

The death occurred in London last week of Dr. Henry Koslovsky, the Beersheva doctor who inaugurated health services for Negev Beduin tribes. He was 57 and had been ill for some time.

Admits Cropping Wife's Hair But Denies Trying to Dynamite Her

TEL AVIV, Sunday. — "It's true enough I cropped my wife's hair so that she wouldn't be unfaithful to me, but I didn't try to blow her up," Nathan Shaulov, 34-year-old resident of the Caucasian Quarter told District Judge Zohar today.

He is accused of assaulting his wife and of poisoning employees without a license. The marital troubles came to light when a policeman went to the Shaulov home, in connection with other charges of illegally holding explosives. Police Sergeant A. Dushk revealed that Mrs. Shaulov had clipped her husband's hair.

She claimed in Court today that her husband had cropped her hair, then tied a stick of dynamite in her foot. The policeman's arrival saved her, she said.

Admitting that he had cropped his wife's hair "so as to teach her a lesson, and to preserve the family honor," Shaulov said that she had not been injured. He had brought his wife to the hospital, but it was "dead." He was a supplier by trade, and his hobby was playing with mines and explosives materials.

He had not meant to kill her, "If you want to kill a woman, there are other ways of doing it," he asserted. "I put her up to it," he asserted.

Fleeing leniency, he said he was unemployed because of absenteeism. This had resulted because he had spent time in jail. The magistrate granted bail of IL200, and the accused gave a written undertaking to stay in his parents' home in Be'er Sheva, until the hearing of court proceedings.

The District Attorney appeared immediately before the District Court and received a stay of the release until March 17. (Times)

Kibbutz and P.E.C. Sued for Boy's Death. TEL AVIV, Sunday. — Kibbutz Givim and the Palestine Electric Corporation are soon to be charged in the District Court with causing death by negligence of a 10-year-old child.

Mr. and Mrs. S. Spector, of Ramat Gan, have submitted claims for the loss of their son, Ya'akov.

While visiting his sister, a member of Kibbutz Givim, near the Gaza Strip, Ya'akov climbed a ladder to look at a pigeon coop on a second floor roof-top. He fell from the ladder and died on the way to hospital.

The parents claim that the ladder was conducting electricity and that Ya'akov had received a shock which made him stick to the rungs and that he fell when the current stopped.

After the prosecution's evidence was heard, the Judge listened to the recordings in closed session.

STRUMA MEMORIAL. TEL AVIV, Sunday. — A memorial meeting for the 709 Jewish immigrants who perished when the refugee ship Struma sank in the Black Sea on February 26, 1942, was held tonight at the Jabotinsky Institute.

Half of the passengers aboard the ill-fated ship were members of Betar, which had chartered her.

Mr. Y. K. Kibbutz, a member of the Jabotinsky Institute, was the main speaker at the memorial meeting.

The memorial meeting was held at the Jabotinsky Institute, which is dedicated to the study and promotion of the Jewish cause.

French Economic Mission to Visit Israel

President of Economic Council to Lead Group of Industrialists

SEATED in his spacious office overlooking the palace courtyard of the Palais Royal, M. Emile Roche, President of the French Economic Council, looked through the diary on his desk until he came to what promises to be an important date in the history of Franco-Israeli relations: April 19 next. On that day, at 40 minutes past noon, he is due to catch a plane for Israel, with his wife and daughter. He will be accompanied by a representative of the French Ministry of Finance and Economy and by a party of French industrialists and businessmen.

"Monsieur le President," I asked, "what is to be the object of your mission?" The answer he gave me was anything but a stock one. He said: "We go to Israel to pay tribute to the courage of her people and to her just struggle for human rights. As a lifelong fighter myself for the cause of the oppressed, I wish to foster economic and cultural spheres between France and the State of Israel, and to establish, of course, not only into my functions."

Israel "Pace-Setter" "Israel is incontestably the pace-setter of economic and social development in the Middle East, and when, sooner or later, peace is established between herself and the Arabs, she will have much to contribute to the prosperity of the whole region."

"My family and I," M. Roche added, "as Christians, particularly look forward to spending the Passover festival with the Chai Rabbi of Israel. We were very happy to be asked to Israel by the Ambassador, Mr. Tsur, whose admirable intelligence and infinite courtesy have earned him a very important place in Paris."

M. Roche should prove a most discerning observer of all aspects of life in Israel, for he is a man with an unusually wide range of interests and experience. The house where he was born, 63 years ago, at Estaire, in

northern France, faced the chimney stacks of textile mills, but the back windows overlooked open country, and he grew up as familiar with industry as with farming. His people were in business, but had socially progressive ideas, his grandfather having been a founder of the Radical Party.

At the age of 17, Emile Roche became a voluntary

assistant to Abbe Lemire, member of parliament for Hainaut, who, for all his priestly vestments, was the acknowledged leader of the Left in Flanders. Later on, however, when M. Roche himself went into politics, he joined the anti-clerical Radical Party.

War Service A pacifist who thought, and still thinks, that the First World War served no useful purpose, and should have been avoided at all costs, M. Roche won the Croix de Guerre after seeing service as a volunteer in the East. Joining up as a corporal in 1914, he emerged from the army in 1918 with the rank of captain.

When the fighting was over he took on a Government assignment to help rebuild the ruins of the textile industry in his native Flanders. In 1926, he founded and managed a daily newspaper, "La Republique," which was the first of a series of publications. He was also a member of the French Liberal, Joseph Caillaux, one-time friend of the French Republic.

At the same time, he became the disciple and intimate of the French Liberal, Joseph Caillaux, one-time friend of the French Republic.

During the Second World War, he published in Germany a French newspaper, "L'Europe Nouvelle," which was the first of a series of publications. He was also a member of the French Liberal, Joseph Caillaux, one-time friend of the French Republic.

Haifa Art Notes

Lam Changes His Weather

S. LAM, at Goldman's Gallery, presents his most satisfying show of oils since his return from foreign parts. He has discarded the superficial effects of color and assimilated a wider range of color. As Degea said about Whistler: "It is not always white, but it is always white."

True, several pictures, mainly landscapes, belong to his special style, some of them very attractive. Yet to see Lam fully relaxed (and repose was always inherent in his work), you have to observe paintings like "Still Life" (11), where the artist and the shadow form a single entity and the fruit's yellow and blue-grey give life to the whole. Or, as Degea says, "the girl's form moulds into that of the chair."

Again, if you want colour complementing form, take the "Lovers" (No. 17). If action, take the "Dancer" (No. 10). No. 10, people in an alley, are all four related to each other but sufficiently distant to maintain an unbroken repose. If Lam keeps up the spirit and execution of these four

works, he will fast near maturity.

Letter from Paris by Maurice Carr

book on Franco-Moroccan prospects, "Perspectives franco-marocaines."

Vice-President of the Radical Party, M. Roche served as its administrative chief from 1931 to 1934, with the late Martinand-Deplat, who was the arch-enemy of M. Roche, as its secretary.

Since May, 1934, he has been President of the Economic Council, which, under the Constitution of the Fourth Republic, forms one of the four Houses of the French Parliament — the others are the National Assembly, the Senate and the Council of the French Union.

The Economic Council is a purely advisory body, which gives permanent and technical guidance to the legislative Chambers and to the Government. It is a "brain trust" composed of highly qualified persons from all fields of economic and human potentialities which Israel — "a nation of France" — offers as a major highway, a bridge between three continents.

M. Roche, who is as imaginative as he is hard-headed, at once far-sighted and down-to-earth, will no doubt fully seize the vast economic and human potentialities which Israel — "a nation of France" — offers as a major highway, a bridge between three continents.

Yesterday's Press

Post-Withdrawal Struggle Anticipated

THE aftermath of Israel's withdrawal is taken up by a great part of the press. The main question is: what will be the next move with the U.N. and the U.S. will the former stand the test and carry out the other part of its February resolution now that Israel has withdrawn, and will the latter honour the promises that it has made to Israel?

Now that the withdrawal is an accomplished fact, writes Lamoroux (Abraham H. H. H.), it seems that we must prepare anew for a fresh struggle to obtain those rights for which we opened the Sinai drive four months ago. The threat of sanctions has been introduced now, perhaps graver, dangers, which we must look full in the face.

Devas (Hiladur) writes that if the General Assembly session of the autumn of 1947 laid the foundations for the recognition of a Jewish state, the latest session, which has put this recognition to a vote, is a new, stronger and more stable foundation. It has sounded the death knell of the assumption that there is one law for Israel and another for the other nations.

Any attempt to return to former partiality can thus only be extremely dangerous. This should be repeated again and again for the benefit of the Secretary-General, who is now beginning to waver on stationing the UNEF on our side of the border, and of the British Foreign Minister, who has hinted at a re-

vival of the Eden Guildhall ideas on the truncation of Israel's territory. Every hint of this sort only encourages Arab intransigence.

Omer (Hiladur) declares that now that the powers that have been placed by the withdrawal, their promises have been carried out in isolation or under the threat of an embargo.

Habaker (Gerson Zlotnik) writes that the Assembly has not accomplished anything to boast about, having recessed without solving any of the world's problems. The session has only revealed the weakness of the international body in its present composition.

Our correspondent, who is a refugee, is trying to tell us that our ignominious retreat from Gaza and the Straits constitutes a diplomatic victory.

At the very moment that our people are celebrating a triumph, the body of the Beit Govra shepherd murdered on Friday in a pool of blood from the building of Egyptian infiltrators under Egyptian command. The nation must know the truth and draw the only possible conclusion: the Beit Govra shepherd, who has been with that firm for the past 30 years.

Typical of the German craftsman to whom skill is a tradition, Mr. Yensen admitted that he was very pleasantly surprised when he came to Israel because he did not expect to see such a degree

of technical achievement. His journey to Israel is actually his first trip abroad.

Mr. Yensen told us that the owners of his firm, which was founded in 1888, were three Jews — Messrs. Levi, Schaefer and Leiser. They had fled to the U.S. in 1938. Before leaving they called together their workers, who were then members of the Social-Democratic party, and advised them to join the National Socialist party, which they should not suffer.

Mr. Yensen said that as soon as the war was over he began to receive food parcels regularly from Mr. Levi. The former owner visited Germany in 1950 and received full compensation.

The visitor said that Germany has to solve problems similar to ours. It has to settle millions of refugees who are coming in from Eastern Germany, and it has to re-build much of the country. Hamburg, which was badly damaged during the war, had been almost completely reconstructed. What makes Germany's resettlement easier than Israel's is that it is dealing with a homogeneous mass of refugees who share the same language and background.

Told about our difficulties, Mr. Yensen shook his head and said that one could hardly grasp how we were able to deal with such enormous problems in such a short time. "It is one thing to read about Israel in the newspapers and quite another to see what it has achieved at first hand," he said.

Mr. Yensen's organizers study the Mexican Carnival show carefully.

Dutch-German Far East Diary

Indemnity Talks

ONE of the subjects of the Dutch-German Far East Diary is the payment of adequate compensation to the Dutch victims of Nazi persecution. The Netherlands Foreign Minister, Dr. J. H. A. M. Luns, has stated in the press in Bonn. The Netherlands will not be satisfied with a kind of charity or with a token payment, but will insist on an adequate settlement of this German debt to Dutch citizens.

Earlier this week, the Bonn Government in a memorandum to eight former Allied Governments (including the Netherlands) and to Switzerland, stated that it might possibly agree to make an ex gratia payment to those non-Germans who are in needy circumstances and who do not benefit from other indemnities.

The Council, which meets in plenary session twice a month, about once with such matters as the post-war master plan for the modernization and reconstruction of the national economy, national revenue and day-by-day economic trends; labour and social problems; trade and distribution; transport and communications; town-planning and public works generally; tariffs; tourism; and economic relations with foreign countries and investments abroad.

M. Roche, who is as imaginative as he is hard-headed, at once far-sighted and down-to-earth, will no doubt fully seize the vast economic and human potentialities which Israel — "a nation of France" — offers as a major highway, a bridge between three continents.

MR. KISHI STEPS IN

Indemnity Talks

HONG KONG (OFNS). — Mr. Nobumasa Kishi, who has been elected Japanese Prime Minister in succession to Mr. Tansan Ishibashi, is a comparatively young (59 years old) man, and is alert and fit. There are three qualifications that no Japanese Premier has had for some time.

The business community, which was chary of some of Mr. Ishibashi's economic theories, feels that it has a sound and responsive man in Mr. Kishi. The U.S. has no reason to object to his being anti-American.

Mr. Kishi has probably reached the Premiership sooner than he would have wished. As Secretary-General of the Japanese Democratic Party, and later of the Liberal Democratic Coalition, he exercised considerable political power. But he was dissatisfied at the progress towards real fusion in the coalition.

He had liked to wait a solid machine together before the time came for him to take over the controls. Already the ex-Premier, Mr. Shigeru Yoshida, from whose Liberal Party Mr. Kishi organized the first big breakaway to found the Democratic Party, is moving slowly behind the scenes. To court him and other ex-Premiers, Mr. Ichiro Hatoyama, is showing that although he may be ailing, his political acumen is not yet defunct. Mr. Kishi appears to be in for just as lively a time from his own party as from his predecessors.

Communism Rumours "Hong Kong recently has been full of alleged peace offers from Peking to Formosa and talk of possible deals. These are all pure speculation. The Moscow-educated elder son of Generalissimo Chiang Kai-shek, did proceed several stages last year.

Apparently, the proposal was that President Chiang should go into exile and that Formosa should come under the joint governorship of Mr. Kishi and the U.S. This was a far-reaching proposal, and it was not clear whether it was a serious offer or a mere bluff.

It is not always so. I have seen a heron desert his almost naked little ones, only three days old, quite definitely and for good, without the least visible compunction. Last year, on the other hand, I saw a flycatcher remaining on her young when I approached. As a little girl I have been stupefied enough to stroke a snake. I remember my shrinking and my very beating heart, and my very retreat. P. A.

Instinct V. Fear

Instinct V. Fear

ALL field naturalists have seen a bird fluttering and hopping in one direction away from the nest, and then, suddenly, dragging the wings. That bird is supposed to be behaving thus for the purpose of luring an enemy away from the nest. The classic example in literature is Darwin's wife, the tailor bird, who in Kipling's First Jungle Book successfully lures the cobra away.

The behaviourists offer the following, and when you keep this in mind when watching, it fits even better. We have here two instincts overlaying each other, neither strong enough to keep the other under. One is the wish to flee, the other the urge to protect the babies. The bird flutters off, but hesitates — that explains the dragging wings, the nervousness.

It is not always so. I have seen a heron desert his almost naked little ones, only three days old, quite definitely and for good, without the least visible compunction. Last year, on the other hand, I saw a flycatcher remaining on her young when I approached. As a little girl I have been stupefied enough to stroke a snake.
